

FBDCA BREED EDUCATION PROGRAM (BEP)

GOAL

The goal of the FBDCA Breed Education Program (BEP) shall be to develop educational programs that:

- Recognize the French Bulldog as primarily a companion, and encourage owners, breeders and judges to select French Bulldogs whose appearance, soundness, temperament, and personality reflect the breed standard.
- Educate breeders and owners in the care and enjoyment of their French Bulldogs.
- Educate the general public about French Bulldogs so that they may make informed decisions about whether the breed is appropriate for them; and if so, how to obtain, raise, and properly care for a French Bulldog.

DESCRIPTION:

The Program will be developed and implemented by four Committees, and will be headed by a Breed Education Program Chair. The four committees are:

- Public & Members Education Committee
- Breeders Education Committee
- Judges Education Committee
- Technical Support Committee

Each committee will have its own chair to lead it and to coordinate its work with the other committees and with the BEP Chair.

Each Committee chair may request assistance from temporary consultants of their choice, without seeking Board approval, unless non-budgeted funding is required. The Board of Directors shall publish, in the *Frenchie Forum*, on the FBDCA Website, and on the FBDCA Members Chatlist the requirements for each position within the BEP, along with an application form. The Board will review the applications received and make appointments based on the qualifications of the volunteers. The Board may waive certain qualification requirements if an applicant has other qualifying experience and/or expertise. After an initial two-year or three-year set of appointments, all committee members shall be appointed to staggered two-year terms.

- Maintain a list of seminar speakers and mentors, selected by the Committee and approved by the Board, for presenting programs to judges and others around the country.
- Maintain a list of mentors, selected by the Committee and approved by the Board, for providing one-on-one mentoring to judges and aspiring judges.

TECHNICAL SUPPORT COMMITTEE

GOAL

The goal of the Technical Support Committee is to advise and assist in the technical design and production of a wide range of high quality written and audio/visual educational programs and materials.

DESCRIPTION

The Technical Support Committee will consist of an unspecified number of people with a variety of writing, art/design, computer, and audio/visual expertise to advise and assist in the technical design and production of programs and materials whose content will

be designed by the three other committees. Upon approval of the final product by the initiating Committee, a prototype will be reviewed for overall BEP uniformity by the BEP chair and the chairs of the two other Committees and, when approved by them, submitted to the Board of Directors for final approval and funding (if needed). After approval by the Board of Directors of these materials, a copyright may be registered by the Board in the name of the French Bull Dog Club of America if it is deemed necessary or advisable.

CHAIR RESPONSIBILITIES

The Committee Chair shall:

- Serve as the contact point for the other Committees when they need assistance of a technical nature.
- Compile and maintain a list of people who possess specialized skills and expertise in all aspects of educational media.
- Upon receipt of a request by one of the other Committees for technical assistance, will identify the person(s) most qualified to give it, and put the requesting Committee in touch with him/her/them.
- Maintain records related to the activities of the committee.
- Maintain communication with the BEP Chair about the activities of the Committee.

QUALIFICATIONS

The Technical Support Committee Chair shall be an organized and effective communicator with a broad understanding of educational media and technologies. (S)he shall be a member of the FBDCA but need not have bred or shown French Bulldogs.

TYPICAL TOPICS/PROJECTS:

Assist the three other Committees in the technical aspects of the production of a variety of materials whose content will be supplied by those Committees. These may include, but are not limited to:

- Audio/visual programs
- Written articles, brochures, seminar handouts
- CD and DVD materials.
