

FBDCA Guidelines for Supported Entries and Sweepstakes

Any FBDCA member in good standing can request that our club support a French Bulldog entry at an all breed show. Further, that member can request a French Bulldog Sweepstakes at that show. These two types of events have very different requirements, which are outlined below.

It is important to understand that the *AKC is not involved with a supported entry*. A supported entry is an agreement between the FBDCA and the all-breed club giving the show where the FBDCA would support the French Bulldog entry.

A Sweepstakes event on the other hand, requires:

- invitation from the hosting all-breed club
- FBDCA application for a sweepstake event submitted to the FBDCA secretary for board approval
- an AKC Application for Show / Trial (AEVT02 09/18 v1.0P) submitted to the AKC (by the FBDCA member acting as the event chair) for AKC approval

SUPPORTED ENTRY REQUIREMENTS

The FBDCA supports the French Bulldog entry at all breed shows to showcase our breed and to encourage exhibitors to enter.

I. The Requester

- A. Any request must be from an FBDCA member in good standing, either making the request as an individual or on behalf of a **developing** French Bulldog regional club.
- B. A club may apply for one (1) supported entry per year, requesting medallions and financial support of \$100.00.
- C. Individuals with NO local club assistance may apply for one (1) supported entry per year, requesting medallions and financial support of \$200.00.
- D. A club or individual may be approved to hold more than one (1) supported entry, however no financial support or medallions will be available from the FBDCA for the second event.
- E. The member requesting the supported entry agrees to serve as a chair for the event, carrying out any needed duties related to the host all-breed club, trophies, venue, publicity, etc.
- F. The member requesting must agree to keep the FBDCA board advised of plans so that the information may be included in our communications with members.

SWEEPSTAKES REQUIREMENTS
